A transcript was taken.

2. In general the Director gave them our current analysis based on recent information of the 15 January Soviet test. The Director explained that this was very sensitive information. Senator Hickenlooper stated that while it may be subject to different evaluations by other people he certainly believed that this was a deliberate violation of the test ban treaty by the Soviets. The Director also gave them the content of Ambassador Dobrynin's oral statement on this matter and read them the proposed aide memoire to go to the Soviets. Senator Anderson and others expressed their deep appreciation at the Director keeping the Committee fully and currently informed.
